Open Frame

The AMEOF65-JZ series is one of Aimtec's compact size open frame 65W AC/DC converter. It features universal AC input of 85 – 264VAC and at the same time accepts a DC input voltage range of 100 – 370VDC. Furthermore, the AMEOF65-JZ has a low power consumption, high efficiency up to 87%, high reliability and reinforced isolation of 3000VAC.

It offers an EMC compliance of IEC/EN61000-4 and CISPR32/EN55032 and meets IEC/EN/UL 62368-1 standards. The converters also include output short circuit, over-current & over-voltage protection. These converters are widely used in industrial, office and civil applications such as modems, printers and telecom devices. For extremely harsh EMC environments, we recommend using the Typical Application Circuit on this datasheet.
